THOR PALE. A TRACT OF LAND lying on Duff's Creek, in Rockfish township near Rockfish; open land enough to make on hundred barrels of corn a year; the farm hundred barrels of corn a year; the farm is in good order; * marl bed extends over ten or fifteen acres through the middle of the farm, and pretty good buildings are erected thereon. The marl is better than stable manure or cotton seed. This track of land is four and enc-half mices off the Duplin road and three miles off Teachey's Depot, on the west side of the railroad.

Harper's Bazar. ILLUSTRATED. Notices of the Press.

Notices of the Press.

The Bazar is edited with a combination of tact and talent that we seldom find in any journal. and the journal itself is the organ of the great world of fashion.—Boston Traveller.

The Bazar commends itself to every member of the household—to the children by drell and pretty pictures, to the young ladies by its fashion-plates in endless variety, to the prevident matron by its patterns for the children's clothes, to paterfamilias by its tasteful designs for embroidered slippers and luxurous dressclothes, to paterfamilias by its tasteful designs for embroidered alippers and luxurious dressing gowns. But the reading matter of the Bazar is uniformly of great excellence. The paper has acquired a wide popularity for the ill eside enjoyment it affords—Evening Post. In its way there is nothing like it. Fresh and trustworthy as a fashion guide, its stories and essays, its poetry and squibs, are all invigorating to the mind.—Evening Journal.

APPLETONS' AMERICAN CYCLOPÆDIA

E dec15tf

New Revised Edition.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engra-vings and Maps. THE work originally published under the title of THE NEW AMERICAN CYCLOPA-DIA was completed in 1884, since which time the wide circulation which it has attained in all parts of the United States, and the signal debranch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to be new edition entitle THE AMERICAN CY-

MUP EDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative made a new work of reference an imperative want.

The movement of political affairs has hape pace with the discoveries of science, and their fruitful application to the industrial and metalicities and the convenience and refinement of social life. Great wars and consequent revelitions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced. Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the last decade, with the newpapers or in the transient publications of the day, but which ought now be take their place in permanent and authentic history.

In preparing the present edition for the

n preparfing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an according to the most recent discoverage science, of every fresh production in literature and of the newest inventions in the practice arts as well as to give a succint and original to the practice.

arts, as well as to give a succint and original record of the progress of political and historical arts. cal events.

The work has been begun after long amorated preliminary labor, and with the most ample resources for carrying it on to a successful termination.

fur termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Oyelopadia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvement in its composition as have been suggested by longer ar perience and enlargedk nowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the nost famous and remarkable features of scenery, architecture, and art, as well as the various nost famous and remarkable features of some-y, architecture, and art, as well as the various rocesses of mechanics and manufactures. Al-hough intended for instruction rather than imber shment, no pains have been spared to asu. I their artistic excellence; the cost of heir execution is enormous, and it is believed will find a welcome reception as an ad-pirable feature of the Cyclopædia, and worthy if its high character. This work is sold to Subscribers onl: This work is sold to Subscribers only syble on delivery of each volume. It will be completed in sixteen large octavo volumes, each contaieing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithographic Maps.

Price and Style of Binding.
